

QUESTIONNAIRE
Almaty Technological University

(*) - mandatory fields

	Details about organisation
* Organisation name	Almaty Technological University
Organisation acronym	ATU
* Organisation Activity Type (RES - Research, HE -University, SME - Small and Medium Enterprise, IND -Industry, OTH - Other)	HE
* Keywords of main research areas	Food, biotechnology, safety of food products
* Head of organisation (first name, family name)	Kulazhanov Kuralbek Sadibayevich
* Post code	050012
* Country	Kazakhstan
*City	Almaty
* Street, House	Tole bi, 100
* Telephone (+ country & city codes)	+ 7 (727) 293-52-87
* Fax (+ country & city codes)	+ 7 (727) 293-52-92
* E-mail	atukz@mail.ru

The Almaty Technological University is the leading higher educational institution in the Republic of Kazakhstan on profile preparation of experts for food, processing and light industry. Scientific activity at university is concerned with the realization of priority directions of science and technics, preparation of science and scientifically-pedagogical staff. Scientific researches in ATU are realized in following basic directions:

1. Progressive ecologically pure technologies of storage and complex processing of agricultural products for creation of food products of the increased food and biological value.
2. Chemical, biological and ecological aspects of food production safety.
3. Development and introduction of the technological equipment of new generation for storage and processing of agricultural production.
4. Perfection of methods of designing and technology of textile and light industry products.
5. Scientific basis of creation of multifunctional polymers and highly effective synthetic and natural biologically active compounds and preparations.
6. Perfection of management and economic mechanism of development of the enterprises of agro industrial complex.
7. Researches in the field of physics, mathematics, mechanics of continuous environments and discrete systems.
8. Innovative processes in the higher school.

Only for last three years scientists of ATU have received over 55 patents and prepatents of Republic Kazakhstan. Science research department coordinates in ATU search and patent work, release of university scientific magazine «Food technology and service» and «Newsletter».

With the purpose of the further development of scientific activity at university in 2002 the Scientific Research Institute of Food Technologies, in 2003 - Problem Research Laboratory on creation of food stuffs of new generation, in 2004 - the Scientific Research Institute of problems of light industry, and in 2006 - Problem Research Laboratory of laser activization of technological processes, Research Laboratory of food safety has been created.

At the university all the conditions for development of scientific potential of staff have been created. The best works are recommended to the publication in magazine «Food technology and service» and go for participation in republican and international competitions of scientific works.

Scientific laboratories are equipped by the newest equipment for developing of new technologies for storage and processing of agricultural products, creation and introduction of machines and apparatus for food and light industry, studying of problems of modern technologies in textile and sewing fields of industry.

	Contact Information
* Contact person (first name, family name)	Tankibayeva Mereke Khafizovna
* Department / Laboratory	Departament for quality monitoring and international
* Position	Head
* Qualification and research experience	Professor, Cand. Sc. (Philology)
* Post address (house, street, city, code, country)	Kazakhstan 050012 Almaty Tole bi, 100
* Telephone (+ country & city codes)	<u>+7 (727) 2 93 52 87 (in.120)</u>
* Fax (+ country & city codes)	+ 7 (727) 293-52-92
* E-mail	t.mereke@mail.ru
