**• Description of organisation and its research achievements for the last five years (~ 5000 signs)**

Academician Evnei Arstanovich Buketov Karaganda State University is one of the largest multi-discipline universities of our country, history of which imbibed 70 years of successful following the traditions of classical university education and principles of academic freedom.

During all the periods University gave an example of devoted service to ideals of science and enlightenment, faithfulness to humanitarian values, society progress. Among Kazakhstan state institutions of higher education Academician Buketov Karaganda State University (KarSU) was the first one who fulfilled specialized international accreditation on economic training profile. University was one of the first institutions of higher education who started introduction of innovation educational model of credit-hours which corresponds to international standards of education quality; shifted to multilevel education system including pre-institution training, multilevel Bachelor training, post graduate education at Magistracy and Doctorate. Nowadays University prepares more than 14,000 Bachelor students on 72 specialties. Training of higher staff is carried out at Magistracy on 37 specialties and at Doctorate on 5 specialties. Distance education technologies are developed and used in the academic process. Among them are multimedia academic means, teaching programs, electronic textbooks which got high value at republican and international exhibitions. University scientific library amounts more than 2 million edition copies. It is the first library of higher education institutions which shifted to such new readers service technologies as electronic catalogue organization and introduction of automotized library system. Traditions preservation and successful introduction of innovations permitted University to take one of the leading positions in the national rating of higher education institutions.

Material base of academic process is actively developing. Academic classes are equipped with modern special projector, audio and video technical means. All faculties have specialized academic laboratories and studies, multimedia and tutor classes, electronic resources halls. All university faculties and chairs have access to Internet sources and they are united with system

“Electronic university” and IP-telephony.

In 2008 Academician Buketov Karaganda State University successfully passed traditional procedure of state attestation, conducted by Ministry for Science and Education of the Republic of Kazakhstan, having acknowledged its leading positions at Kazakhstan higher institutions of education.

University takes care of its graduates job placement and perspectives of their career growth. At KarSU there is Graduates Employment and Career Center which supports links of the faculties with corporative region community and coordinates work of University Graduates Association with employers. On the initiative of Graduates Employment and Career Center on the university base one conducts annually traditional Vacancy Fairs and Career Days.

University international cooperation is directed toward integration into world educational space. Currently KarSU is a full member of a row of the authoritative international organizations among which are Magna Charta Universitatum, Eurasian Association of Universities (EAU), International Higher Education Academy of Sciences (IHEAS), etc. University fulfils large joint projects on Programs TEMPUS, TEMPUS TACIS, ERASMUS MUNDUS, USAID, DAAD, and KOICA. University teachers and students raise their professional skills in the framework of scientific interships, participate in exchange programs, scientific conferences, and become the owners of national and international research, educational grants, fellowships and scholarships: 30 leading university Professors and Assistant Professors have become grant owners of the Ministry for Science and Education of the Republic of Kazakhstan “Best Institution Teacher”, above 90 university students continue their study abroad in the framework of President Scholarship Program “Bolashak” and international exchange programs. More than 200 foreign students from distant overseas and CIS countries study at KarSU. For the last years dozens of delegates from foreign institutions, international funds and organizations have visited KarSU for discussion of new cooperation projects.

At Academician Buketov Karaganda State University there were formed acknowledged scientific schools which carry out fundamental and applied researches. Our university scientists are awarded with state rewards for their contribution into development of science and technique in Kazakhstan.

Academician Buketov Karaganda State University is one of the leading educational and scientific centers in Kazakhstan. We are proud of our history, highly value our traditions and open to new ideas. Our graduates multiply glory of native science, education and culture.
